HISTORY

The idea of starting a school that would emphasise on and implement the concept of "Learn through Life" evolved during a discussion between Mrs. Mrinmayee Bhave (founder of Daffodils Nursery School, Pune), Dr. Prakash Bhave (a practising Radiologist) and Mrs. Vineeta Nagarkar (former Vice Principal of Jnana Prabodhini, Pune) in 1992.

This was further conceived and conceptualised to merge the ancient 'gurukula' system with the emerging trends of the modern day education system.

MOTTO

Swadhyayshakti (Discovering inner strength).

VISION

A Community of Intergenerational Learners that embraces integrity and compassion.

MISSION

To create an integrated learning environment of uncompromised quality. Each one can bring their unique contribution towards fulfilling the school philosophy of promoting moral character, intellectual ingenuity, and global citizenship. We ignite and empower young minds.

PHILOSOPHY

SES GURUKUL strives to enhance a child's **physical, social, emotional, and intellectual** development in the most crucial years of the child's growth. We encourage children to inculcate a positive attitude towards learning, which will hold them in good stead throughout life. To meet this goal, it is essential to help children set realistic goals and undertake challenges in school that would hone their capabilities.

SES GURUKUL's distinct tradition, culture of innovation and indomitable school spirit, provides a fertile learning field for the New Age Child. SES GURUKUL is an integrated school where we have students of varying abilities. The teacher's role in this enterprise is more to inspire than to teach – to be a facilitator, role model and a guide.

Creating a quality learning environment involves everyone----- parents, students, teachers, support staff and volunteers, each bringing a unique perspective and contribution towards fulfilling the school philosophy. These are essential ingredients of SES GURUKUL.

Spirit of SES GURUKUL

SES GURUKUL believes in transition from:

- academics **to** education
- teaching and studying **to** learning, assimilation and application
- regimentation **to** self-discipline
- shortcuts and excuses **to** accountability and responsibility
- unhealthy rivalry and stress **to** friendly co-operative learning.
- complacency **to** excellence
- ignorance and apathy **to** awareness and involvement

In SES GURUKUL we believe that the best education is one –

- ❖ that inspires children with the desire to explore and learn and one that suggests, rather than preaches
- ❖ which enables children to discover their inner strength.
- ❖ where children are encouraged to become both independent and interdependent learners with collaborative project work.
- ❖ which creates a stress free environment and encourages children to approach everyday challenges with a positive attitude.
